DURA-GROTM

PLASTIC FEED TRAY

SOUTHWEST AGRI-PLASTICS is proud to introduce our newest addition to our poultry product-line, the **DURA-GRO Plastic Feed Tray**. Our durable lightweight tray is designed to give you longer life while providing better feed distribution and reduced cost. We manufacture the tray using a virgin high-density polyethylene plastic, providing superior impact and wear resistance. **DURA-GRO's** ribbed bottom and sidewalls maximize strength while preventing feed loss. The ribbed design also reduces loss from chick scratching. Smooth surfaces make **DURA-GRO** easy to clean. The 13" width allows it to fit easily between the feed pans of all brands of feeding equipment.

FEATURES & BENEFITS

- Size: W 13" x L 22" x H 2"
(W 33cm x L 55.9cm x H 5.1cm)
